The Remarkable Doctor A. Fauci

Dramatic political and social decisions are being made across the United States and around the world on what emergency quarantine measures and other steps must be taken. In many cases the radical and severe measures, such as shutting down the world economy, are being justified by COVID-19 case projections of morbidity into the future. If there is one person who is the face of the current strategy of dealing with the coronavirus in Washington it is the Director of the US National Institute for Allergy and Infectious Diseases (NIAID) of the NIH, Dr. Tony Fauci. What major media conveniently leave out in discussing Fauci’s role is his highly controversial and conflicted history since he first joined NIAID in 1984 during the beginnings of the AIDS panic. His role then sheds valuable light on his remarkable and highly controversial actions today.

Tony Fauci, a leading member of the White House Coronavirus Task Force, is being promoted by major US media such as CNN, MSNBC or the New York Times as the great expert on all related to the Covid19 outbreak. He had dismissed the President’s efforts to promote a known malaria medication as treatment for severe corona patients as “anecdotal,” even though seven years before he backed the same drug. He has publicly taken projections from an institute created in Washington State by the Gates Foundation, the same foundation that virtually owns the WHO and owns major stakes in the leading vaccine makers, to claim that up to 200,000 Americans could die from COVID19. Fauci stated that COVID19 is “probably about 10 times more lethal than the seasonal flu,” which would mean 300-600,000 coronavirus deaths this year, at the same time in a respected medical journal he compared Covid-19 as similar to seasonal flu in morbidity. When questioned how long the shutdown of much of the US economy must last, Fauci replied only when there is zero new covid19 positive tested cases, something impossible given the defective testing. He has also backed direct human tests of novel vaccines with no prior animal tests, including with radical non-tested mRNA gene-edited vaccines.

Fauci has more influence over US national policy on the unprecedented Covid-19 pandemic than anyone, including the President. Much of media treats him with awe as an unimpeachable scientist, one of the world’s finest. A closer look at Anthony Fauci’s career gives a starkly different picture, a very alarming one in fact.

America’s AIDS Czar

Tony Fauci has held the top post at the NIAID in Washington for an astonishing 36 years. Today he is well past retirement age at 79, and holds the funds to determine which drug companies or university researchers will get precious government funds or not from NIAID’s annual $5 billion budget.

Let’s go back to 1984 when Fauci was named head of NIAID during the Reagan era. That year an AIDS researcher, Robert Gallo, working under Fauci, held a press conference to announce that he had “discovered” the AIDS virus. He said it was HIV- human immunodeficiency virus. The shocking announcement which went around the world, was in complete disregard of scientific procedures of prior peer-reviewed published scientific evidence, including the required electron microscope analyses. It was a case of “science by press conference” as a critical scientist, Prof. Peter H. Duesberg described it. Duesberg was an award-winning researcher at Berkeley who isolated the first cancer gene through his work on retroviruses in 1970, and mapped the genetic structure of these viruses.

For Gallo and Fauci, that was unimportant as millions in research funds flowed into NIAID to research the new virus, HIV. Fauci and Gallo claimed that AIDS was highly contagious, also by sexual transmission, especially among homosexual men. Notably, before the Gallo claim to have found the HIV AIDS virus, NIAID had been doing research...
on the role of drugs, poppers or nitrites, proven immune-suppressants, in the deaths of the earliest AIDS patients. That was quickly dropped in favor of researching a “cure” for AIDS. Media was told that AIDS was the “public health threat of the Century.” Gallo went on to make millions on his patented blood test for HIV, despite the fact that the test was often giving false positives and did not test directly for the alleged virus but for active antibodies, something immunology practice said was not valid, as antibodies merely suggested a past infection response and not necessarily presence of AHIV. At this time in the 1980’S Fauci was responsible for AIDS research at NIAID, a post he still holds.

**False Tests?**

The issue of HIV/AIDS tests is central. While a frightened world was clamoring for a test, Gallo and Fauci promoted their deeply flawed tests of antibodies. In 2006 Gallo claimed, “HIV tests were highly accurate from the time they were developed in 1984 and have become much more accurate over time...” Highly accurate in 1984 but more accurate than highly over time? Gallo added in response to criticism, “A PCR test for the presence of the virus itself can accurately determine a child’s HIV status.”

In a sharp rebuttal of the Gallo claims, claims endorsed by Fauci and the NIAID as well as CDC, Roberto A. Giraldo, MD and Etienne de Harven, MD, the scientist who produced the first electron micrograph of a retrovirus, pointed out that both the ELISA and Western blot, and a genetic test, the PCR or ‘Viral Load’ test,” the two major tests used to determine if one has AIDS, are invalid. “None of these tests detect the HIV virus itself, nor do they detect HIV particles.” They add that there are “more than 70 different documented conditions that can cause the antibody tests to react positive without an HIV infection.” Among the false positive cases are influenza, the common cold, leprosy or the existence of pregnancy. The same tests are used today to determine SARS-CoV-2-positive.

They concluded, “The fact that after 25 years of intense research HIV has been neither isolated nor purified in terms of classical virology indicates to us that the infectious view of AIDS as a contagious viral disease is based on an apparently non-existent microbe!”

Giraldo and de Harven declared, “The alleged existence of HIV was asserted from the study of proteins, reverse transcriptase activity (RT), and RNA fragments that were found in culture supernatants, not from the direct analysis of purified viral particles.” The CDC requires a positive antibody test for HIV to determine AIDS in the USA. Yet in Africa since 1985 the WHO requires no HIV test or any other laboratory test. Merely the patient’s symptoms that can include weight loss, chronic diarrhea, prolonged fever, persistent cough and such, symptoms endemic to chronic poverty, malnutrition and lack of sanitation.

Yet this fraud has shaped the career of Tony Fauci for more than 35 years. Fauci as head of NIAID has taken millions from the Bill & Melinda Gates Foundation as well as the Clinton Foundation along with tens of billions from US taxpayers for this bogus research. Suspiciously, the 2006 article by Giraldo and de Harven was suddenly retracted by the journal in 2019 just before the coronavirus Wuhan outbreak.

Despite the fact that he knew the established rules of virology, Fauci, as head of NIAID, recommended the Burroughs Wellcome chemotherapy drug, AZT as a “preventive drug” for HIV diagnosed patients even without symptoms! Burroughs Wellcome gave NIAID the study that was deliberately biased for AZT. Fauci even backed AZT for pregnant women despite the grave risk to the fetus. One mark of pregnancy in all women is a higher level of antigens as the natural immune system fights any infection to protect the fetus. AZT or Retrovir, a failed leukemia drug, has been proven to be a highly toxic drug. It was approved for AIDS testing in a record 5 days by Fauci and the US Government in 1987. Today despite more than thirty years funded research and billions of dollars, no effective vaccine for HIV/AIDS exists.

**Fauci and Gilead**

According to people who have studied the role of Tony Fauci as head of NIAID, his focus has been what is called scientific reductivism, described as “a 19 Century-style, single-germ theory for a complex web of factors that collapsed the immune systems of a subset of gay men in the early 1980s.” He has refused to explore the documentation that a variety of lethal drugs and other toxins such as nitrites could play a role. As a result he has wasted tens of billions of taxpayer dollars since 1984 on dead end experiments. One of his most nefarious was his collaboration with Gilead Sciences.

Not satisfied with having developed a false positive test for AIDS and having gained FDA fast-track approval for AZT to treat HIV-positive patients with serious illness symptoms, Fauci decided to collaborate with Gilead (as in the Biblical “balm of Gilead”) on what came to be called PrEP experiments.
Fauci in 2007 began to finance clinical trials of the AZT drugs in HIV “negatives,” on the theory the chemotherapy would “protect” them from becoming “positive.” That is, testing toxic HIV drugs on otherwise healthy persons to “insure” they never got AIDS. If it sounds mad, it was. Gilead supplied the drug, Truvada, to NIAID between 2007-2012 for Phase III human tests on HIV negative subjects. Four tests of at least 2,000 and up to 5,000 test subjects each, were done. The project was called “pre-exposure prophylaxis” or “PrEP.” Healthy subjects were given doses of chemotherapy drug Truvada on the thesis it could prevent them from one day getting HIV-positive. CDC, in its May 2014 recommendation urged physicians to prescribe Truvada for negatives in the so-called “risk groups,” an official government imprimatur for an extremely profitable drug.

The FDA ignored two of the four Truvada tests that had failed and been halted. Despite that and owing to data manipulation by Fauci’s NIAID and Gilead, the FDA approved the dangerous Truvada for PrEP. Today Gilead lists the side effects of Truvada: Kidney problems, including kidney failure; worsening Hepatitis B; too much lactic acid in your blood (lactic acidosis), which can lead to death; severe liver problems, which can lead to death; bone problems. They state that Truvada “can help reduce the risk of getting HIV-1 through sex, when taken every day and used together with safer sex practices.”

The Fauci-Gilead scam of promoting Truvada for healthy people to “reduce risk” of HIV is a marker for the level of medical malpractice and in some cases evident criminal abuse of human health that the current White House coronavirus guru, A. Fauci, represents.

Fauci and COVID-19

In October, 2019 Fauci and his NIAID got $100 million from the Gates Foundation to develop “gene-based” therapies for HIV and sickle cell disease. That means Fauci still to the time of the first claims of novel coronavirus in Wuhan China, Fauci was still promoting a 35-year fraud around HIV. Fauci is also part of the Gates Foundation cabal. In 2012 Fauci was named one of the five Leadership Council of the Gates Foundation-created Global Vaccine Action Plan.

This is highly relevant to his role today as the Trump Administration coronavirus “pope.” Has his NIAID or any other laboratory in the world rigorously, with electron microscopy, isolated and purified samples of patients tested SARS-CoV-2 positive for Covid-19? Or are the virus proofs as faulty as Fauci and the AIDS clique have made for HIV?

In addition NIAID is working with Gilead to conduct Phase II human trials on Gilead’s drug, remdesivir, as a potential treatment for hospitalized adult patients diagnosed with COVID-19.

A coincidence?

Relevant also is the fact that all top scientific advisers to the US President’s Task Force on COVID-19 are tied since decades to the bogus and destructive HIV/AIDS research and propagation of false theories. Alongside Tony Fauci of NIAID stands Deborah L. Birx, M.D., Obama appointee as US Global AIDS Coordinator who worked under Tony Fauci at NIAID from 1983-1986.

Robert Redfield is the current Director of the Centers for Disease Control and Prevention, center of the recent coronavirus testing scandal. Redfield cofounded with the discredited Robert Gallo, former Fauci colleague in the AIDS scandals of the early 1980’s at NIH, the Institute of Human Virology based at University of Maryland. Redfield and Birx also coauthored numerous scientific articles on purported HIV vaccines, none of which have been effective.

Fauci, Birx and Redfield, all incestuously complicit in the HIV/AIDS frauds and malpractice, today hold the future of not only American public health, but also of the entire world economy in their hands. Not a good situation. As their work on the proved HIV=IDS fraud shows, the coronavirus tests do not at all prove presence of a deadly virus in any patient. If this is so, it is perhaps the greatest criminal fraud in medical history.
