When the Criminal Liars Shout, “Conspiracy Theory!” You Should Stick to the Facts

Do you know who coined the curse, “conspiracy theory” or accusation, “you are conspiracy theorist!” – It was nobody less than the CIA in the 1950s, to silence those who saw through the lie of the Cold War against the Soviet Union. This was a complete lie by US war strategists, to install fear in the population in general and in Europeans in particular and to boost the American Military Industrial complex – and presenting a constant threat to the communist Soviet Union.

A complementary phrase developed in the last years is “fake news” --- people who are saying well-founded truths, are being accused of spreading “false news” – and that by the very media that spread the real false news and lies in the first place. A dystopian world indeed, and most of the public doesn’t capture it.

The fear factor is always a crucial element in dividing people, and in corralling them into chambers of fear – which allows anything outside to happen – building up armament, faking an arms race - when there was none. The Soviet Union came out of WWII - where they lost between 25 and 30 million people to safe Europe and the world from fascism.

But western history books have it, that it was the United States and her European allies, who foremost defeated Hitler. This false news is continually being propagated, last by the recent WWII Victory Celebration on 9 May 2020 – without any consideration of the key role of the Soviet Union - today's Russia – in defeating the Hitler Nazis.

After this enormous sacrifice, the Soviet Union had no intention nor the resources to build up an army to defeat the west – as was being propagated by the US and then being aped by Europe, hence justifying 40 years of a Cold War, based on FEAR. The Cold War destroyed the natural relationship (trade, diplomatic, cultural) between Europe and today's Russia.

Today, however, anybody who dares to remind the western media, politicians and friends of the real conqueror of Hitler, namely the Soviet Union – is a “conspiracy theorist” – or someone who spreads “false news”.

The Corona Crisis

The latest example of conspiracy galore, is the corona crisis. What is playing out in front of our eyes, a worldwide lockdown of everything, followed almost by every government of this globe with similar severity, quarantine, confinement at home for almost everyone under the “pretext” of protecting you – the people – from an invisible enemy – a corona virus. And every government KNOWS it is a disaster for the national and world economy – it is social suicide. Yet they go along – with the orders of whom?

As most of us who look for our own sources of information, outside the mainstream dominated, government dictated or supported lies, data collection and statistics on COVID-19 infections, as well as death rates, are vastly inflated and willingly falsified, to increase the fear factor and prolong the all destructive lockdown. This horrendous cheat is not just actively practiced in the US, but also in Europe. A point in case is Italy

Unless solid proof is presented, like by the Italian Member of Parliament and a number of medical doctors, virologists and microbiologists from Italy and other European countries, as well as the US, anybody who refers to the fakeness and unreliability of the statistic is called a conspiracy theorist --- a liar. And in some countries people who tell the truth are even liable to fines and legal pursuit. These threats and conspiracy accusations should shut us up. But they don’t and won’t. We want the truth to come out and be known to the entire world.
The World Economic Crisis

We already now realize the damage of unheard proportions. In the first four months of this so-called, WHO-denominated pandemic, we see a global disaster of proportions far exceeding those of 1929-33 and 2008-09. Never in recorded human history has so much misery been created.

Bankruptcies abound, the stock market plunged so far by more than 30% (with some ups and down – called “quick profit taking” by the rich and powerful on the back of the small investors), a meltdown of productive assets, easy prey to be bought by large corporations - unemployment soaring to heights never experienced before by modern humanity, currently at least 37 million Americans out of a job. This does not account for those having given up looking for a job or claiming unemployment.

According to Fox Business News, up to 40% may never get back to work. The FED predicts unemployment may reach 50% by the end of the year (in the worst 1929 recession period unemployment attained 25%). These are only US statistics. The situation in more chaotic Europe may be even worse.

The International Labor Office (ILO) announced that within months worldwide unemployment may hit 1.6 billion people, half the globes work force. Many of these people, especially in the Global South have already been at the verge of poverty or under the poverty line, living from day to day, with no savings. Now they are condemned to begging – and many, maybe hundreds of millions, to die from famine, according to the World Food Program (WFP). Many if not most of them have no access to health services, no shelter, or any other form of social safety nets, because the COVID-caused economic collapse has wiped out even flimsy social safety structures poor countries may have set up.

Misery no end. And this is only the tiny tip of the iceberg. The worst is still to come – when in a few weeks or months a clearer picture of what industries will live or die will emerge – and more people will be relegated to economic paupers.

The Real Conspiracy

Taking a few steps back – it is clear, it is no coincidence that the entire world is stricken by the same virus. That does not happen naturally – but can happen, as it did, when the virus is artificially implanted in every country – and that at the same time. So, there is a diabolical plan behind this so-called corona-crisis which does not even have to be a crisis, if we look at real disease and death rates – not the inflated, fear-inspiring ones.

So, who is behind this all? – Well, without naming names and leaving that guessing up to you, there are several reports and events that have “predicted” such a pandemic. One of the most prominent ones, is the 2010 Rockefeller report – that described in surprising detail what is happening now, and calls it the “Lock Step” scenario. According to the report it should get worse and the current pandemic might be followed by a stronger wave later this year or in 2021. Strangely, the IMF’s economic projections for a “post-Covid economy, foresees 3 scenarios, two of which consider another outbreak in the second half of 2020, or in 2021.

Event 201 on 18 October 2019 in NYC, simulating among other atrocities a corona pandemic that would leave 65 million dead within 18 months. This was the final stroke before the planned outbreak. Let’s just say that the evil masterminds behind this monstrous crisis are a few very rich, power-thirsty psychopaths and their families and cronies. They are planning a One World Government, also called the New World Order, or the One World Order – that has been under preparation since the latter part of the last century. It requires total control over the population and- a sizable population reduction.

That’s where the eugenics come in. Many of the Rockefeller club, the “Bilderberg Society” members have been advocating population reduction for decades, including Bill Gates. He even bragged about it when in a 2010 TED talk in Southern California, “Innovating to Zero”, he said, “when we do a real god job vaccinating, we may reduce world population by 10% to 15%. “. He wants to eliminate poverty, literally.

However, talking about it, and connecting the dots of what we are living today - is Conspiracy Theory.

Why are Bill Gates’ new corona vaccines possibly killer vaccines? – Here is how it works. The Gates Foundation first created the pharmaceutical company “Moderna” in Seattle, Washington State, not far from his Microsoft empire, basically to produce tailor-made vaccines for the Gates Foundation. Then the foundation gave US$ 20 million to Moderna for the development of a COVID vaccine. A few days ago, Moncef Slaaas resigned from Moderna’s Board to become White House Director of Operation Warp Speed, a plan to fast-track a COVID vaccine. Nobody seems to
bother about the flagrant conflict of interest – let alone the health risk that poses. But it gets even better. The Pentagon’s Defense Advanced Research Project Agency (DARPA), a little-known agency that is hardly in the news, had, according to Whitney Webb (Last American Vagabond) knowledge of the pandemic outbreak at least since last November, possibly earlier.

This means that President Trump knew about it, but didn’t do anything about it, rather let it happen. His blaming China today for mishandling the corona crisis is a sheer lie and a propaganda bluff to denigrate China’s reputation and her rising economy and solid currency, the yuan – which may soon take over from the dollar as a key world reserve currency.

DARPA is also financially supported by the Bill Gates Foundation. They have been working on new vaccine technologies for several years. The COVID-19 outbreak brought this research work to prominence. DARPA is closely collaborating with Bill Gates in applying this new technology to the vaccine, Bill Gates wants to develop and impose on the world population.

According to Whitney Webb, DARPA and its partners agencies are planning to “produce DNA and RNA vaccines, classes of vaccine that has never been approved for human use in the US and involve injecting foreign genetic material into the human body. Notably, it is this very class of vaccine, now being produced by DARPA-partnered companies, that billionaire and global health “philanthropist” Bill Gates recently asserted has him “most excited”, relative to other Covid-19 vaccine candidates.”.

This is not conspiracy theory; this is real conspiracy. This sounds like the kind of medical trials Hitler’s medical team has carried out. The perpetrators were condemned at Nuremberg. In our dystopian world, nobody will be punished, even if thousands or maybe hundreds of thousands will die from the Gates WHO-supported rush with an untested vaccine. Though, it would match the eugenics agenda.

The so called (by WHO) COVID-19 “is the biggest scam ever perpetrated on the human race.” It is a multi-generational lie that has become a ‘false normal’, says Dr. Sherry Tenpenny, founder of the Tenpenny Integrative Medical Center. And as a piece of reference enhancing her reputation, she has 20 years of vaccine research experience and her articles are translated in 12 languages and she appears frequently on radio and TV to educate parents.

“By putting vaccines into our bodies, we are inserting foreign matter, toxins, into our cells, like mercury and aluminum.” In legal terms vaccines are “unavoidably unsafe”. Through pharma lobbying, in 1986 Congress has passed the National Childhood Vaccine Children Act, a law whereby pharmaceutical companies cannot be sued for any damage their vaccines cause, including death.

Vaccines have enormous side effects, especially in small children, causing various lasting diseases, like peanut allergies, asthma, eczema and – yes – autism.

Particularly harmful vaccines are western-made MMR (measles), polio and DTP (diphtheria, tetanus and pertussis (whooping cough). Russian made vaccines have different compositions and have helped prevent millions from polio and other debilitating, crippling or killing diseases. Since 2002, when revenues from vaccines for US phama companies amounted to about US$ 8 billion, revenues and profits have skyrocketed to more than 60 billion per year by 2020. Every new vaccine is worth about a billion dollars.

Anybody who speaks out against vaccination, irrespective of the evidence given, is labeled a conspiracy theorist by the media, and often by the pharma-coopted medical society.

People start understanding that Bill Gates and his Bill and Melinda Gates Foundation (BMGF) call the shots on public health around the world, especially on vaccination – vaccination against the corona virus. The sinister new vaccine that Bill Gates in tandem with Dr. Anthony Fauci, Director of NIAID (National Institute of Allergy and Infectious Diseases), one of 27 agencies of the National Institute of Health (NIH), and supported by CDC and WHO - and in cooperation with DARPA – are described above. All Gates promoted vaccines are made by western pharmaceuticals.

You should know, that the Bill Gates Foundation also generously funds NIAID, NIH and CDC. Both CDC and NIH own several hundred if not thousands of vaccine patents. So, they have a vested interest in promoting vaccination,
no matter how much harm they cause to the population.

But this cannot be questioned, let alone criticized – else you will be denigrated as a conspiracy theorist. In fact, western Governments hire psychologists, sociologist and medical doctors to give interviews and talk to the media, on conspiracy theories - in a last-ditch effort to dissuade people from thinking. And many still fall for the lie, but evermore stick to their own investigated information - and demonstrate and protest, often with civil disobedience, against harsh government measure of police -and often military crackdowns.

They call out against Bill Gates and WHO, a corrupted organization that receives half to three quarters of its annual budget from private donors, mostly the pharma industry, Bill Gates, but also telecom-industries (that’s why WHO has been silent on the potentially nefarious effects of 5G). Bill Gates is the biggest single donor of WHO. Conflict of interest is never discussed in the media. Those who know the truth and don’t hesitate calling it out, are silenced by being called conspirators, liars by the media and – of course, by much of the medical community. In fact, Bill Gates literally calls the shots on matters of public health that affects the entire world.

People – be aware!

Also speaking out against vaccines and the lab produced viruses from which eventually vaccines are derived, is Dr. Judy Mikovits, a long-time NIAID micro-biologist, who has been severely punished by Dr. Fauci for defending her research results which Fauci wanted to hide. Her book, “Plague of Corruption” is currently Amazon’s number one Bestseller. That in itself tells a story of a public awakening.

Referring to her and her numerous interviews, peer-reviewed scientific articles and her book, is called a conspiracy, because even her own outspokenness is called conspiracy - all in an effort to shut up critics of the current system, of the current new-normal that will soon require universal vaccination (Bill Gates with a sly smile wants to vaccinate 7 billion people in the next ten years). Will it be compulsory? Against most countries Constitutional and Democratic Rights? We don’t know. Seven billion is a slight exaggeration, because Russia and China will certainly not vaccinate their people with vaccines produced under Bill Gates funding and supervision.

But even if it is not compulsory, there may be so many “legal” hindrances put in place by western governments that most people eventually will roll over and accept the possibly killer vaccine that Bill Gates and his association of pharmaceuticals (GAVI) supported by WHO, will impose on humanity.

For example, you may not be able to receive or renew your driver’s license, going to concerts, to the movies, to sports events, to fly - and so on. That’s all been talked about and is part of the 2010 Rockefeller Report’s “Lock Step” scenario , in which we are currently hopelessly navigating – under lockdown and with social distancing’ – so nobody can get together and possibly organize a plot against these draconian inhuman measures.

***

Robert F. Kennedy Jr., JFK’s, nephew, founder of “Children's Health Defense” an NGO advocacy organization has this to say:

“Bill Gates is the world’s largest vaccine producer and the single largest donor to WHO and the CDC Foundation. Those agencies are now marketing-arms for his vaccine empire.

In January 2019, Gates had WHO declare “vaccine hesitancy” the top “global health threat” (with Ebola, cancer, war, and drug-resistant pathogens), signaling a worldwide Pharma Gold Rush to mandate vaccines to all people.

Gates maxed-out in donations to Intelligence Committee Chair Adam Schiff’s Political Action Committee (PAC). In February 2019, Schiff wrote to Facebook, Google, Amazon, and Pinterest, demanding they censor “vaccine misinformation, “a term meaning all skepticism toward government and industry pronouncements about vaccine safety or efficacy—whether true or not. – “Vaccines are both effective and safe,” Schiff wrote. “There is no evidence to suggest that vaccines cause life-threatening or disabling disease.”

This was misinformation. A year earlier, Schiff pushed a bill to hike the Vaccine Court admin budget to $11,200,000 to reduce vaccine injury backlogs. The court had already paid out $4 billion for vaccine deaths and disabilities.

Facebook and Pinterest said that they will rely on Gates’s WHO and CDC to say which on-line statements are “misinformation or hoaxes.” Facebook and Google hired “FactChecker” (Politifact) to censor vaccine misinformation. The Gates Foundation is “FactChecker's” largest funder. In his article, “Fact Checker, a Propaganda Device,” investigative journalist Jeremy Hammond concludes, “Facebook is guilty of misinforming its users about vaccine
They have no problem with lies about vaccine safety and effectiveness, as long as it’s intended to persuade parents to vaccinate their children.”

On May 4, 2017, FactChecker declared as false, Del Bigtree’s statement, “Vaccines include aluminum and mercury, which are neurotoxins, and vaccines cause encephalopathy.”

FactChecker explained, “Current data show vaccines are safe and do not cause toxicity or encephalopathy.” [However], manufacturer’s inserts reveal that many vaccines contain aluminum and mercury, and cause encephalopathy. - Finally, massive gifts to NPR & PBS buy Gates biased vaccine coverage.

This statement is from public media Highwire.

“I’m (Robert Kennedy) not anti-vaccine. I’m against dangerous, shoddily tested, zero liability vaccines with toxic ingredients. If someone came up with a thoroughly tested vaccine that was completely safe and efficient, one that performed as promised, one that made people healthier rather than sicker, I’d be for it. - Indeed, only an idiot would oppose it.

But under no condition, would I support mandatory vaccination. Government has no right to force citizens to take unwanted medicines or to submit to involuntary medical interventions.”

And he adds:

“Google is a vaccine company. It has a $760 million partnership with Glaxo-the world’s largest vaccine maker and similar deals with Sanofi and Merck to mine your medical information. Google’s mother company, Alphabet, has 4 vaccines developers working on flu, and other, vaccines.”

Google and Youtube are removing videos from highly experienced doctors, epidemiologists, biologists and virologists - censuring is also the new normal - but they are promoting a billionaire software developer and a 16 year old climate change “expert” about viruses and vaccines --- what does that say for the media, for the governments that support and finance the media.

The Strategy behind shouting Conspiracy - Conspiracy Theorist

There is a lot of psychology behind the strategy - leading people to a state of cognitive dissonance, of believing a narrative they know is a fiction, meaning, you know there is something not quite right, but you don’t’ dare questioning it. Why? Because of being called a conspiracy theorist. And why does that matter? Because it is a demeaning term, robbing the accused of his credibility (well thought-out by the CIA in the 1950s). Somebody stamped as a conspiracy theorist, believing in conspiracy theories - in fake news, makes you a lesser person in your friends’ eyes. So, they may avoid you - and if you stick to your opinion, you may gradually move into isolation. Being isolated, no friends, is fear-provoking. So, better believe the official narrative.

The silver lining around this dark cloud is ever more visible and ever brighter.

Be self-assured. Don’t cave in. Stick to your own research, to your opinion, regardless of being insulted as a conspiracy theorist. Stand up for what you believe - and do it with passion. Other people also have doubts, and when they see people defending their believes with passion, they may join you. And so, a critical mass grows. And the conspiracy theory strategy loses rapidly power - and fades away. Fading is already visible throughout European and US cities, where tens of thousands take to the streets, defending their civil and human and Constitutional Rights.

These are encouraging signs. Hope never fades – until “we shall overcome.”
